

CHEF POWERSTATION

GOURMET FOOD & BEVERAGE WORKSTATION

Mobile Kitchen on Wheels

The DTG Chef PowerStation is the most advanced battery-powered mobile cart for made-to-order cooking, continuous refrigeration and POS transactions. It also brings the benefits of mobile food and beverage services to sports & leisure events, business and industrial facilities, health system campuses, micro markets, airline lounges and anywhere that advanced cooking, heating and refrigeration services may benefit from mobile delivery.

DTG MPower LiFE Battery System is at the heart of every Chef PowerStation

The DTG MPower LiFE Battery System

It all starts with the industry's most reliable, advanced, and safest battery system. DTG's LiFE (lithium iron phosphate) battery chemistry is the safest, most powerful, and cleanest energy source available, providing long lasting and fast charging power that exceeds the rigorous demands of commercial food and beverage service applications. It's also backed by the industry's best 5-year warranty.

DTG's Chef PowerStation is perfect for Sports & Leisure, K-12 & Universities, Business & Industry, Healthcare, Micro Markets, Airline Lounges, and more!

CHEF POWERSTATION

ALL THE RIGHT FEATURES

The Chef PowerStation incorporates a self-powered, motorized, and automated brake/locking caster system for swift, safe, and easy transport between sites. It features a 36" commercial grade refrigeration system. It's rugged powder-coated steel frame will withstand harsh environmental conditions, while the Corian® countertops and retractable shelving provide work surfaces that exceed NSF food safety certification. It is highly configurable, customizable, and accessorized to satisfy a variety of food and beverage venues.
